Choose Your Look

Light

Dark

Auto

Select an appearance and see how the Dock, menus, buttons, and windows adjust depending on which one you choose.

You can change this later by going to System Preferences.

Back

Continue

Siri

Siri helps you get things done just by asking. Siri can also make suggestions before you ask in apps, search, and keyboards. Apple stores transcripts of your interactions with Siri and may review a subset of these transcripts. Siri also sends information like your voice input, Hey Siri setup, contacts and location to Apple to process your request. Data is not associated with your Apple ID.

Screen Time

Get insights about your screen time and set limits for what you want to manage.

[Set Up Later](#)

Weekly Reports

View daily and weekly charts and get insights about your screen time.

Downtime and App Limits

Schedule time away from the screen and set daily time limits for apps or app categories.

Content & Privacy Restrictions

Restrict settings for contacts, explicit content, purchases and downloads, and privacy.

Screen Time Passcode

Manage screen time for children from your Mac or iOS device, or use a screen time passcode on your child's device.

Back

Continue

Enable Location Services

Location Services allows apps like Maps and services like Spotlight Suggestions to gather and use data including your approximate location.

**Updates Available**

Do you want to restart to install these updates now or try tonight?

[Install](#)[Later](#)**Install macOS
Catalina****Keyboard Setup Assistant****Introduction**

Your keyboard cannot be identified and will not be usable until it is identified. To identify this keyboard click Continue.

If your keyboard is working properly and you have an additional USB input device connected to your computer that is not a keyboard, you can skip this step.
